Comments

In the Foreword add
 3) The capital letter T is substituted for the Greek letter tau to represent total spectral transmittance; and the capital letter R is substituted for the Greek letter rho to represent spectral reflectance.
 In 4, above "Wavelengths shall be given in namometers" add a new "ANS Note 4: The capital letter T is substituted for the Greek letter tau; and the capital letter R is substituted for the Greek letter rho."
 Remember the remaining ANS Notes.
