

Foreword to OP version of ISO 9211-4

Foreword to the American National Standard edition

This part of national standard OP1.9211 describes specific test procedures for coating environmental durability tests that are identified in OP1.9211-3 but are not described in other normative references. It is based entirely on the international standard ISO 9211-4:2012.

However, when a referenced ISO standard has also been published as an ANSI standard, the ANSI standard has been substituted.

This standard was processed and approved for submittal to ANSI by the OEOSC Committee on Optics and Electro-Optical Instruments, OP. Committee approval of the standard does not necessarily imply that all members voted for its approval. At the time it approved this standard, the OP Committee had the following members:
